

FRYE LIGHTS

JUNE 2007

VOLUME V ISSUE 6

MESSAGE FROM THE COUNCILMEMBER

Dear Friends,

The following is a commentary I wrote that recently appeared in the *Voice of San Diego*.

A Stop Work Notice Sunroad Might Heed

As most people know, Sunroad built an office tower in Kearny Mesa next to Montgomery Field. The Federal Aviation Administration (FAA) determined, before the office

I also stated that it was time for Sunroad to be a good corporate citizen, remove the portion of their building that was determined by the FAA to be a hazard, and put public safety ahead of private profit.

tower was completed, that the height of the building exceed safety standards and is a hazard to air navigation. Sunroad ignored the FAA's hazard notice and continued building.

On April 3, 2007, I joined with the Community Airfields Association and many other pilot organizations urging Mayor Sanders to enforce the October 2006 Stop Work Notice that had been issued to Sunroad.

Unfortunately, the Mayor's response to our urgent request was that he was "not sufficiently aware of the details of the project to respond." This comment was unsettling for a number of reasons:

- Sunroad's office tower had been the subject of numerous news stories.
- The Mayor's own staff in Development Services had issued two Stop Work Notices - one in October 2006, and another in December 2006.
- There had been ongoing communications between the Mayor's staff and the Sunroad developer and lobbyists.

I also stated that it was time for Sunroad to be a good corporate citizen, remove the portion of their building that was determined by the FAA to be a hazard, and put public safety ahead of private profit. Sunroad's response was that they complied with all city regulations and they kept working on the office tower.

Finally, on May 17, 2007, Mayor Sanders held a press conference to announce that he was issuing yet another Stop Work Notice. It is still unclear why the first two were not enforced or why seven months elapsed between the issuance of the first Stop Work Notice and this one.

Mayor Sanders also announced that he had written a letter to the FAA and

Key Budget Dates

There is no doubt that this year's budget deliberations have been difficult. This month, the deliberations are wrapping up and the Mayor's veto period begins. The following list shows the remaining dates in to the Fiscal Year 2008 budget process.

Fri, June 1	Independent Budget Analyst's report on Recommendations to the Mayor's Budget
Wed, June 6	Budget Review Committee: consideration of final modifications to Mayor's Budget, Mayor's June Revision to Estimated Revenues and Expenditures
Mon, June 11	Full Council Decisions on Final Budget Modifications
Tue, June 12	Full Council Hearing: Housing Commission Budget Mayor's Veto Period Begins
Wed, June 13	Budget and Finance Committee Meeting
Tue, June 19	Mayor's Veto Period Ends
Mon, July 23	Introduction of Appropriation Ordinance
Mon, July 30	Adoption of Appropriation Ordinance

City Offering Backyard Compost Bin Sale *Bins will be offered for 70 percent off retail price!*

The City's Environmental Services Department will sell *Earth Machine* backyard composting bins during a two-day event from 9:00 am to 3:00 pm on Saturday, June 23 and Sunday, June 24 at four locations around the City.

The *Earth Machine* is a three-foot-tall round bin made of recycled plastic, and is designed to be filled with 80 gallons of yard waste and most food scraps to produce compost. The normal retail value is \$80, however, on June 23rd and 24th, the City will sell *Earth Machines* for \$25 (including tax) to City residents, and \$38 (including tax) to non-City residents, at the following locations:

Saturday, June 23, 9:00 am to 3:00 pm

Lewis Middle School, 5170 Greenbrier Ave, 92120
University City High School, 6949 Genesee Ave, 92122
West View High School, 13500 Camino del Sur, 92129

Sunday, June 24, 9:00 am to 3:00 pm

Balboa Park, off President's Way & Park Blvd

Show a valid driver's license or other form of I.D. that proves City residency to receive the \$25 price. The limit is 3 bins per household. For more information contact the Environmental Services Department at (858) 694-7000.

Twilight in the Park Celebrates 27 Years of Free Concerts in Balboa Park

The Spreckels Organ Pavilion in Balboa Park invites you to join them for free concerts under the stars!

Parking is free and children are welcome, so come early, relax, bring food if you'd like and enjoy the outdoors. Program times are from 6:15 pm to 7:15 pm (unless otherwise noted on their schedule). June's events are as follows:

Tue, June 19: Cat-illacs (Rock & Roll Classics)
Wed, June 20: Jazz Express (Big Band Jazz)
Thur, June 21: Dixie Express (Dixieland)
Tue, June 26: U.S. Navy Band Southwest
Wed, June 27: Lawrence JCC (Klezmer Music)
Thur, June 28: Bayou Brothers (Cajun/Zydeco)

Visit www.balboapark.org to view the schedule for the rest of the year!

THINKING ABOUT BUYING A CAR? *The Street Smart Conference Has Done Your Research!*

Everyone is feeling the pinch of escalating gas prices and that is why Councilmember Frye kicked off a 10-day exhibit at the San Diego Automotive Museum where citizens and business owners could efficiently compare and contrast the specifics, performance metrics and overall functionality of today's wide array of alternatives to the many gas guzzlers on the road; and learn what is coming down the pike in the way of future technologies.

Councilmember Frye was joined by Ed Begley, Jr., actor and environmental activist, and star of Home & Garden Television's "Living With Ed." His show's "here and now" philosophy reinforces that with today's technology, doing things for the environment is also good for your wallet.

Councilmember Frye pictured here with Ed Bagley, Jr. after an informative press conference.

Continued from page 1...

California Department of Transportation acknowledging their concerns. However, the Mayor proposed a "solution" that would allow Sunroad to exceed a building height of 160 feet by "working with the FAA to discontinue circling instrument approaches north of the field and allowing aircraft to circle to the south." **In other words, Mayor Sanders proposed changing the flight approach used by the pilots to accommodate Sunroad.**

As the elected official representing the district in which the Sunroad office tower is located, I am requesting that the Mayor change course and support the following actions:

First, protect the public, and require Sunroad to remove that portion of its building which exceeds 160 feet. The FAA has determined that the portion of the Sunroad office tower above 160 feet is a hazard to air navigation. I oppose the Mayor's proposal to the FAA allowing Sunroad to exceed a building height of 160 feet and modifying the approach used by airplanes landing at Montgomery Field. **The Mayor's proposal - to require the pilots using Montgomery Field to change their flight approaches to accommodate a developer who ignored the law - makes no sense.**

Second, put public safety first, and do not allow people in the building to work on tenant improvements. Enforce a complete Stop Work Notice.

Third, do not allow Development Services to issue any occupancy permits, nor allow Sunroad to make interior improvements to the building. No one should be allowed in the building until the matter is resolved.

Fourth, require that Development Services *not approve* any further Sunroad office towers under Substantial Conformance Review (SCR). Instead, require Development Services to prepare an amendment to the Sunroad Master Plan and a supplemental Environmental Impact Report for the project. If Sunroad still wishes to proceed with the project, the subsequent review will result in a true public vetting of the project and the ability of all agencies, including the FAA, to comment *before* issuing any building permits.

Finally, the Mayor must include the public, the City Attorney and the City Council in any proposals he makes to the FAA and/or Sunroad. Neither he nor his staff should be unilaterally negotiating any proposals, especially ones that allow Sunroad to benefit from not following the law. **The public has a right to expect that their safety will be put ahead of developer profits, and that Sunroad will be required to comply with the law.**

Note: On June 1, 2007, The San Diego Union-Tribune reported that Sunroad is planning to build "two hotel towers near Lindberg Field that also exceed federal standards." According to the article, Sunroad "ignored directives from the Port District and the San Diego Regional Airport Authority to notify the FAA of its plans," and the "Port recently informed the FAA itself."

After the June Gloom, the Forecast Looks Sunny.....and HOT!

Prepare Yourself and Your Home from the Heat

Heat Exhaustion can occur when you are subjected to hot environments and fail to take in enough fluids, salts, or both. Sun stroke or heat stroke happens when the body's internal mechanism fails to regulate its core temperature. At this point, the body stops cooling itself through perspiration and cannot get rid of excess heat. So, especially if you work in hot environments, it's critical to recognize when you're suffering from a Heat Illness Disorder.

Symptoms of heat stress disorders include:

- Heat Cramps are painful spasms of the muscles. Heat cramps are caused when workers consume large quantities of water but fail to take in enough salt to replace the salt their body lost through sweating. Tired muscles are most susceptible to cramping.
- Heat Exhaustion is identified by moist, clammy, pale skin; profuse sweating; extreme weakness or fatigue; dry mouth; dizziness; a fast pulse; rapid breathing; muscle cramps and nausea.
- Heat/Sun Stroke is evidenced by a very high body temperature (104°F or higher); lack of sweat; mental confusion, delirium or hallucinations; deep breathing and rapid pulse; hot, dry, red or mottled skin; and dilated pupils. Seek medical help at once for this condition.

Luckily you can help prevent these very serious problems by doing the following:

- Drink Lots of Water/Liquids - Replenish the fluid that your body is losing through sweating. Not only water, but critical electrolytes such as sodium, potassium and calcium are lost through sweating, so consider using electrolyte drinks to combat heat related disorders.
- Use Your Head - Do *not* ignore possible symptoms of heat illness disorders. If you feel very hot, dizzy, nauseous or if your muscles cramp, stop and cool off!

Using the next month to prepare for the hot weather ahead is also wise. Take advantage of the time and implement some of these tips to help conserve energy, prepare for blackouts, and protect you and your family.

NO COST TIPS

- In the summer, set your thermostat as high as comfortably possible. The less difference there is between the indoor and outdoor temperatures, the lower your overall cooling bill will be.
- During warm weather months, set your thermostat to 78 degrees or higher when you are home, and 85 degrees or off when you are away. Using ceiling or room fans allows you to set the thermostat higher because the air movement will cool the room. You can save up to 3 percent for each degree the thermostat is set above 72 degrees.
- Reduce the operating time of your pool filter and automatic cleaning sweep to four to five hours, and only during off-peak times.
- To help prevent electricity outages, avoid running your appliances during peak hours -- from 4 p.m. to 6 p.m. -- or anytime an electricity emergency is declared. Do laundry more efficiently by using warm or cold water settings for washing your clothes. Always use cold water for rinsing clothes. Line dry clothes whenever you can. When you need to use the clothes dryer, run full loads, use the moisture-sensing setting, and clean the lint trap after each use. Conserve energy by running your dishwasher only when it is fully loaded, and turn off the dry cycle and air-dry the dishes instead.

LOW COST TIPS

- Replace regular incandescent light bulbs that are used more than two hours per day with Energy Star compact fluorescent light bulbs. Compact fluorescent light bulbs use approximately 75 percent less electricity than regular light bulbs and last up to seven years! Buy Energy Star certified table lamps, light fixtures, or torchieres.

- If your water heater is older than 10 years, wrap it with an insulating blanket.
- Replace air conditioner filters. Dirty filters restrict airflow and can cause the system to run longer, increasing energy use. Replace filters monthly for maximum benefit and save up to 2 percent.
- Plug your home's leaks. Weather-strip, seal, and caulk leaky doors and windows, and install foam gaskets behind outlet covers.
- Install energy-saver showerheads. This can save not only electricity, but water as well.

- Install an Energy Star thermostat. This can save up to 3 percent of your electricity use.

WISE INVESTMENT TIPS

- Replace old windows with new high performance, energy efficient windows.
- Install a "whole house fan." An attic "whole house" fan draws cooler air into your home and forces hot air out through attic vents. Use it when the air is cool outside and in the early morning hours.

- Increase attic insulation. Insulate ceilings to R-30 standards if your attic has less than R-19.
- Seal your ducts. Leaking ductwork accounts for as much as 25 percent of cooling costs in an average home. Have your ducts tested and get any leaks or restrictions repaired by a qualified contractor.

- Buy Energy-Star appliances. When buying new appliances, be sure to purchase energy-efficient [ENERGY STAR](#) models. Also, look for seasonal incentives sponsored by utility companies for energy-efficient appliances.

Need A Place to Properly Dispose of Your Recyclable Materials?

Do you have items that you need to recycle or properly dispose of, and don't know where to go? Visit *I Love A Clean San Diego's* Recycling Database at:

www.cleansd.org/recycle

Any of the following materials should be disposed of at proper recycling receptacles. Please use the website above to find your most convenient location.

Household Hazardous Waste Includes:

Aerosols
Antifreeze
Auto Batteries
Auto Fluids
Disinfectants
Gasoline (w/ container)
Lighter Fluid
Used Oil/Oil Filters
Latex/Oil Based Paints
Pesticides
Pool Chemicals
Solvents

Electronics & Universal Waste Includes:

Computer/TV/Monitors
Cellular & Cordless Phones
Computer (CPU)
Fax Printers & Scanners
Stereo Equipment
VCRs and DVD Players
Misc. Computer Parts
Fluorescent Light bulbs
Thermometers

Update on Bi-Monthly Water Billing

On April 30, 2007, Councilmember Frye received unanimous support from the City Council to return to a bi-monthly billing system for water billing. This action was a result of a November 2006 hearing at the Natural Resources and Culture Committee which Councilmember Frye chairs. The City Council voted to direct the Mayor's staff to prepare the necessary paperwork for this item to be docketed, but the City Council is still waiting for them to do so.

The reason this is so important is because the monthly bills sent out by the City are estimated every other month, and at least 60 % of the residential bills are inaccurate. That means that many residents are paying more money than what they really owe. Even though adjustments to correct this are made every six months, Councilmember Frye believes that residents should receive an accurate bill, and not be forced to wait six months for an "adjustment."

In addition, sending out bills every month adds over \$600,000 in additional costs that can be avoided once the switch to bi-monthly billing is completed. With the recent increase for postage, this amount will only increase, costing ratepayers even more money.

Councilmember Frye pictured above with Andy Manzi, his wife Ruth and his Red Sox memorabilia in the background.

Councilmember Frye continues to push to make the change to save ratepayers money and will keep you updated. **She also commends Andrew Manzi, a Clairemont resident and watchdog, who contacted Councilmember Frye about this issue. He deserves a big "thank you" for his work on behalf of the public's interest. We really appreciate you Andy!**

Councilmember Frye, SeaWorld & Volunteers Plant 50 Trees along San Diego River *Trees are native to the San Diego River habitat*

On May 11, Councilmember Frye, SeaWorld General Manager Andy Fichthorn, along with volunteers from SeaWorld, the San Diego River Park Foundation, American Forest and TruGreen LandCare kicked-off the planting of 50 Fremont Cottonwood trees along the San Diego River this afternoon.

SDRPF Chair Rob Hutsel (left) and Councilmember Frye (right) pictured here with SeaWorld volunteers.

"It is vital that we continue to plant trees throughout our communities and neighborhoods," commented Councilmember Frye. "By continuing to plant trees throughout the district, we not only beautify the community, but help abate the problem of urban heat islands and assist in the prevention of polluted runoff. Planting trees along public streets has even been proven to slow the speed of traffic passing through the neighborhood, thus contributing to the safety of our community."

The tree planting is part of the City of San Diego Community Forest initiative as well as part of the effort to continue beautifying the San Diego River by planting native trees along its banks. "The aspect of this program that makes it such success is the participation by friends and neighbors who are concerned about their community and the maintenance of the San Diego River," said Councilmember Frye.

(From right to left) Councilmember Frye, Andy Fichthorn and Rob Hutsel.

Councilmember Frye thanks all of the volunteers and organizations who came together for this important community event.

Frye Rallies Support for Social Services ADA & Community Infrastructure Funding

Repayment of debt would help fund critical services for San Diego's poorest residents

On May 15, 2007, Councilmember Frye held a rally outside of City Hall to encourage the City Council to restore funding for various social service programs and deferred maintenance projects. The Mayor's proposed budget, if adopted, would cut or eliminate funding for critical Social Service Programs and sell \$15 million of city-owned land to fund ADA and deferred maintenance projects.

The Centre City Development Corporation (CCDC), an arm of the City's Redevelopment Agency, owes the City of San Diego over \$100 million in Community Development Block Grant (CDBG) loans. CDBG funds are federal dollars provided to the Mayor and City Council, to be allocated to low-income organization, communities, or non-profits to assist in providing suitable living environments and expand economic opportunities. Much of CCDC's debt has been on their books for over 20 years. Requiring CCDC to pay back a small percentage of the loan - \$3.8 million of the over \$100 million it owes the city - would have restored the funding for critical Social Service Program and increase funding for ADA projects and deferred maintenance and infrastructure projects throughout the City.

Of the \$3.8 million, \$568,000 would be allocated for Social Service Programs and \$1.6 million would be used for funding projects for the disabled community to address the backlog of infrastructure improvements. The remaining \$1.5 million would be used to fund a variety of CDBG-eligible projects such as lead safe neighborhoods, code compliance, graffiti removal libraries, park and recreation center upgrades, traffic improvements and sidewalk and street repair.

The Councilmember was quoted as saying, "it is a responsible and humane solution to require that CCDC pay back a small percentage of the CDBG debt that it owes to our city. I know there are those who disagree and believe we should wait to require *any* of the CCDC debt to be paid back so the city can earn more interest income on the loan. I would remind them that for many of the people who need our help, waiting is not an option. For me, it is a matter of priorities; the public interest vs. capital interest. I believe the needs of the people in our communities must come first."

Bob McElroy, CEO/President of Alpha Project, a local non-profit that provides assistance to San Diego's homeless population, said "when the city wanted to construct a downtown ballpark, they had no trouble requiring CCDC to pay back over \$40 million in loans, and they didn't even blink. However, when it comes to helping provide services for those most in need, they can't seem to find even a small percentage of the money they came up with in 2001 to pay for large development projects."

"The purpose of CDBG money is to help improve the quality of life for people in our communities," added Councilmember Frye. "It is not a slush fund to be used for pet projects in the future. A small investment today will go a long way to help fund programs and projects that are critical to people's lives today. Requiring a small portion of the debt to be paid back is not only the right thing to do, it's the fiscally responsible thing to do."

Despite her attempt to raise money to save these important homeless and senior programs, Councilmember Frye's proposal to require CCDC to repay loans owed to the City, was rejected. However, she was successful in convincing her colleagues that there should be no further cuts to these services. Currently, the City Council is working with CCDC and the Housing Commission to fully budget these social services at current funding levels while also fully funding the downtown winter homeless shelter.

The City's Blueprint for Growth

Learn more and provide your input!

The City is currently offering several public outreach presentations on the final draft of the City's General Plan, the blueprint for growth in San Diego for next 20 years. Community members are encouraged to participate, address any concerns and review the revised plan. The following information is for a meeting in District Six:

Mission Valley Branch Library
2123 Fenton Parkway
San Diego, CA 92108

June 9, 2007
Saturday Morning
10:00 am - 11:30 am

The City's General Plan addresses a number of issues including walkable communities, accessibility, traffic, housing and open space. City Council adoption of the General Plan Update is anticipated in the fall of 2007. For more information on the Plan, please call the General Plan hotline at (619) 235-5226, or visit the website at: www.sandiego.gov/planning/genplan/index.shtml.

Wow! My local library has so many wonderful events planned for the family this summer!

Summer Reading Program June 15th to August 15th Ages 3 and up!

Join your neighbors at the North Clairemont Branch Library on **Tuesdays at 10:30 am** for the Summer Reading Program, a free summer event sponsored by the Friends of the North Clairemont Branch Library!

June 23: Craig Stone, Master Magician (all ages)
June 26: Graphologist "Clues You Can Use" (grades 4 and up)
July 10: "Forensic" - Get Fingerprinted! (grades 4 and up)
July 17: Mad Science "Mysteries Revealed" (all ages)
July 24: Patchwork Players: "You Be the Detective" (all ages)
July 31: "Sleuthing the Past" - How Knights of Old Solve Mysteries (all ages)
Aug 7: Ventriloquist Joe Gandelman (all ages)
Aug 14: Wild Wonders: "Live Animal Mysteries"

And, don't miss "Story Time for All Ages" on Thursdays at 10:30 am, as well as the "Family Story Time" on Wednesdays at 6:45.

The Friends are also sponsoring crafts for all ages at 4:00 pm on the following Wednesdays: June 20, July 18, and August 15!

There are tons of fun activities for the whole family! The North Clairemont Branch Library is located at 4616 Clairemont Drive. For questions, please call the Branch at (858) 581-9931.

Art Journal Workshop

Express Yourself, Have Fun, and it's Free!

When: Wednesdays - July 11, July 18, August 1 and August 8 from 6:00 pm to 8:00 pm

Where: North Clairemont Library - 4616 Clairemont Dr

Who: Young Adults, 13-19 years of age

Why: If you think you're not an "artist," but would like to be or you would like to become more advanced - this class is for you!

Learn from Susan Richardson, a teacher and artist who works in paint, collage, words and calligraphy. Through a collaboration with the San Diego Public Library and the Friends of the North Clairemont Branch Library, all participants will have supplies, including the journal, paint, brushes, pens, glue and collage elements of all kinds like images, borders, buttons, lace, hand-made papers and more, provided free of charge!

Artists are asked to bring any words or texts they would like to include in the journal - poetry, quotes, or even magazine clippings. Don't have any of these? Don't worry! Susan will provide lots of materials to get you started!

To learn more about Susan and see her work, visit her website at:

www.SusanRichardson.com

You'll begin a journal of visual images and written words that expresses your dreams, ideas - YOU! Spend time with kindred spirits, have fun, play and grow as an artist.

We can't wait to see you in the summer!
